Introducing **Trevik**

We're proud to present Trevik, SKANO's latest range of home furniture. The new collection is inspired by modern Scandinavian architecture and it creates volumes that are defined not only by their appearance but also by the voids surrounding them.

The modern appearance of its units is enhanced by the contrast between the natural look of the shell and the painted inside elements.

The 45 degrees junctions of the external frame show high production capabilities and attention to detail in a market dominated by furniture with corners of 90 degrees, highlighting the manufacturing craftsmanship of SKANO.

Durable Materials

All main elements are made in veneered high quality blockboard. Each piece is carefully crafted and controlled to ensure that the final result is of the highest standards.

Italian-Danish Design

The new range has been developed in collaboration with Innova, a design firm based in Copenhagen and founded by the Italian designer Emanuele Patton.

Modern & Functional

All units offer a mix of open and closed volumes enclosed within a double coloured and veneered frame. The design is minimalistic & modern yet warm & functional.

"Our main objective was to design a modern range of furniture that could embrace the 70 years of tradition and knowledge of the company with a modern and functional style.

I believe that the Trevik collection achieves that.

Fitting well in modern and traditional home alike, the range gives several possibilities to combine and create their own unique furniture."

Emanuele Patton
Designer

Make Your Own

The range is based on a grid system featuring different depths and can also be developed on request in different sizes to accommodate special needs.

The fixed grid of shelves allows for a custom set-up of the doors for each unit and more options are available thanks to the various legs and feet available (low, medium, high) to complete the range.

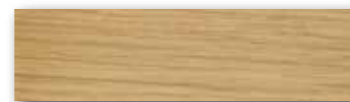

Clients can choose between different veneers (ash and oak, natural or mocha) and various supporting colors to create their own furniture.

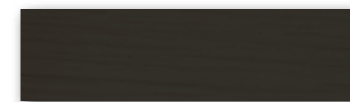

Ash Natural - A

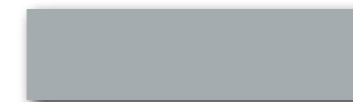

Oak Natural - O

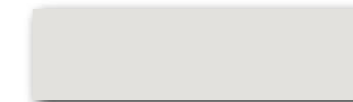

Oak Moch - M

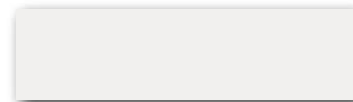

Dark Gray - 26

Light Gray - 7

White - 8

Petrol - 32

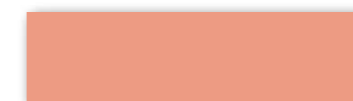

Blue - 10

Purple - 31

Peach - 28

Ochre - 30

Apricot - 27

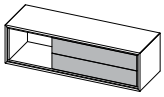

A flexible **System**

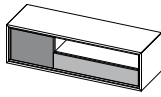

The main aesthetic characteristic of the range is the double frame that each storage unit presents. It's always veneered outside and painted inside, featuring a gap between the edges of the two elements creating additional depth. The contrast between the surfaces gives the collection a distinct & graphical look.
